4 The Ind Council hesitate to undertake levying a Direct Tax - viz. Sanitary Cess on the ground that the existing taxes themselves are weighing heavily on the people They propose instead increasing the tolls by 50% This is hardly fair

The direct taxes levied at present are

(1) House Tax - 5% of the rental Value

(2) Water Tax 3% of ditto

(3) Lighting Tax 1% of ditto

In Bangalore city in addition to the taxes named above, a special Sanitary Cess of 2% is also levied The rates of taxation

in Madras amount to 17 3/4 % of the rental value as follows (1) House tax 10% (2) water tax 6½ %. (3) Lighting Tax 1¼ %
The incidence of taxation per head of population in Mysore is only Rs 2 6 10 against 3-4-0 in Bangalore & 4-5-3 in Madras. Thus it will be seen that Mysore has no cause for complaint regarding additional taxation for conveniences provided.

5 The rel cl urge that the imposition of the cess yields them only Rs 10000 - and that it does not suffice for meeting the addl cost necessitated by the union of the two municipalities. There however is no reason for not levying the cess at all

6 The proposal re the increase of tole rates may be favourably considered if the Council take steps to levy the Sanitary cess and they should this should be clearly pointed out to them

7 As regards transfer of the important roads to be maintained from state funds, a reconsideration of the orders passed does not appear to be necessary.

MI 13-16-1 M	27) In May 1916, the President of the Mysore City Municipal Council urged the necessity for a thorough revision of the Municipal establishments at a cost of about Rs 22,000 per annum. Government however, in June 1917, sanctioned the revision of only the Conservancy establishment at an additional cost of Rs 16,146/- a year and directed that the revision of other establishments should be deferred till the Municipal Council improve their finances as noted in the next para. After repeated pressure from the President a revision of other establishments at a cost of Rs 4,362/- was also sanctioned in March 1918, and a further revision of the remaining establishments at a cost of about Rs 2,400/- has since been submitted and is pending orders of Government. Thus the revision of the Municipal establishments has involved the Municipal Council in an extra expenditure of about Rs 23,000/- a year.

There does not, however, appear to be any justification for increasing the rates of tolls as it will not, to a considerable extent, fall on the inhabitants of the City. There is also the possibility of the District Board claiming ~~the~~ a share of the toll income It is therefore a point for consideration whether the Municipal Council should not be asked to levy the Sanitary Cess which is a direct tax in ~~lieu~~ lieu of the increase of tolls proposed.

Municipality have practically obtained sanction to the entire revision of their establishments, the total extra expenditure involved being about Rs 23,000 a year. As regards increasing their resources, however, has been done so far, except that they have been benefited to the extent of about Rs 4700 yearly, by the Govt waiving their claim to contributions for the Vanivilas Hospital. Now they propose that the Govt should go again to their relief by taking over the maintenance of important roads in the City, which now costs them about Rs 12,000 a year This has, however, before been declined in June/17

The only proposal therefore which they have made to directly increase their income is to enhance the rate of tolls by 50%, which is expected to yield about 15,000 a year extra The question is whether to

Proposals for increasing the rate of tolls in the Kyasro City.

Opinion of the Council.

Government are unable to approve of the proposal to increase the tolls without greater justification for such increase, especially in view of the fact that the present rates are similar to those in force in other cities. Besides, there is no reason assigned why the Municipality should not levy the Sanitary cess as suggested and also revise its principal sources of revenue — viz., house tax, water tax etc., by a revision of the rental values of houses etc.

BANGALORE

Sir,

Adverting to the Government Order No. 7993-14-13-16-27 dated 20th June 1917 sanctioning the revision of the conservancy establishment in the Mysore City Municipality and suggesting the levy of a general Sanitary Cess at 2 per cent on the annual rental value of the buildings in addition to the other taxes proposed for the purpose of augmenting the resources of the Municipality to meet the additional - expenditure, I have the honour to state that the question of levying the cess was discussed by the Municipal Council in their meeting on the 19th Januqry 1918 and it was resolved that no sanitary cess should be levied, as the mohaturfa and other taxes including water and lighting tax that the house holders are already paying, are considered to be too high by the Council Besides the levy of the cess will increase th income of the Municipality only by Rs. 10,000/- which does not enable the Municipality to give full effect to the - Government sanctioning the revision of the conservancy - establishment as it requires Rs. 12,295/- more to do so

2. In order to enable the Council to give full effect to the above quoted Government Order and to give full effect to the proposed revision of the Municipal Establishment pending before the Government, the Municipal Council have resolved that the rate of toll on each of dutiable articles be increased by 50 % .

3 The Council has further resolved that the maintenance of all important roads within the limits of Municipality may be kindly taken over by Government and the Municipality be relieved of Rs. 12,100/- which are annually spent for the purpose. A copy of Council resolution on the subject is herein enclosed for kind perusal.

4 Under these circumstances , I request you to be so good as to place the matter before Government and obtain their kind sanction to increase the rate of toll on each of the dutiable articles by 50 % and to relieve the Municipality from the maintenance of important roads which cost Rs. 12,100/- annually as pointed outin the above.

Order no:- 8349 9.8.19

Govt are unable to approve of the proposal to increase the rates of tolls in the Mysore city, without greater justification for such increase, especially in view of the fact that the present rates are similar to those in force in other cities. adequate reasons

Besides, no reasons have been assigned by the MC of as to why a Sanitary Cess should not be levied as suggested in G.O. No 7993-4 CM 13-16-2 dated 20th June 1917 and why the MC should not also revise their principal source of revenue viz House tax, water tax etc by revision of the rental values of houses by other local means

and the orders passed in the G.O. dated 20th June 1917 continue in force and be given effect to.

By Order etc
